

Seesaw 2 or 4-seats

view

topview with minimum safety area

(...) declarations for 2-seats

Detail tire position

Place the damping tires like this that the seesaw hits the tire flat. However, the seesaw may not protrude beyond the tire!

foundation detail without scale

minimum soil class III; check compression or make foundation bigger

pole

absorber (tyre)

perhaps foundation for unconsolidated ground

foundation plan scale 1:50 m,cm

check measurements

on building site

because of crooked trees different measures are possible

The minimum area must be free of obstacles to/on which the user can during his movement unexpectedly fall or crash. Hard and sharp objects, as well as trip-surfaces count as obstacles.
