

Play House "Baba Jaga"

view

topview with minimum safety area - without roof -

perspective - without scale -

foundation plan check measurements on building site

because of crooked trees different measures are possible

foundation detail without scale

minimum soil class III; check compression or make foundation bigger

pole

slanted ladder

post

The minimum area must be free of obstacles to/on which the user can during his movement unexpectedly fall or crash. Hard and sharp objects, as well as trip-surfaces count as obstacles.
