

# Climbing Tractor

view

perspective  
Without scale

topview with  
minimum safety area

foundation plan  
check measurements  
on building site

because of crooked trees different  
measures are possible

foundation detail  
without scale

minimum soil class III; check compression  
or make foundation bigger

end of slide

pole

The minimum area must be free of obstacles to/on which the user can during his movement unexpectedly fall or crash.  
Hard and sharp objects, as well as trip-surfaces count as obstacles.
