

# squirrel (laying)

topview with  
minimum safety area

anchorage plan  
check measurements  
on building site

anchorage detail  
without scale  
minimum soil class III; check compression  
or make foundation bigger

ground anchor 11.1.5.1

minimum 25 cm well compressed soil  
on the silkscreen panel of the ground  
anchor

The minimum area must be free of obstacles to/on which the user can during his movement unexpectedly fall or crash.  
Hard and sharp objects, as well as trip-surfaces count as obstacles.
