Kinetic Swing

An all time favorite classic playground equipment just got better. Children and adults will have a hard time to let go of this swing. This swing is an indispensable piece in our traditional collection. As soon as you start swinging, Human Powered Energy will be generated. Not only is this super sustainable but it's also a lot of fun! The Swing uses this energy to produce awesome music accompanied by an interactive LED light show. Batteries and underground power cables are something from the past. The swinging motion generates all the energy you need. The industrial grade materials used and the durable powder coating make sure that this swing will provide fun for years. Is it time for different music? No problem! Change it at any time with a simple USB stick. It's time to get outdoors and start swinging!

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
