Serie 800

Adjustable shelf inserts for shelf units and swing-door cabinets, cabinets with glass sliding doors and vertical roller shutters.

Adjustable shelf inserts are available in melamine-resin-coated chipboard and MFB board, each with glued-on plastic edges and made of powder-coated sheet steel. The shelf inserts can be freely positioned by means of shelf supports in the holes and secured against slipping out.

The following material groups are available to choose from: Bases made of chipboard: L6.
