

# BOUNCE CLOUD

SOFT BOUNCING AND SWINGING WITH THE BOUNCECLOUD!

BRAND NEW!

Patented spring system!

Efficient, fast and uncomplicated!

## Minimal ground work necessary!

→ Ideal for pedestrian zones, marketplaces, high roofs, parking garages... as well as daycare centers... from sidewalk paving stones to concrete floors.

## No additional fall protection required!

## Optimal use of space!

- Rimless bouncing surface.
- Combination ability → diverse arrangement options.

## Temporary use and transfer possible!

- Set highlights on the marketplace and then give the BounceClouds to a kindergarten, for example.

## Vandal-proof and durable!

## Variety of colors!

- 3 surface colors available at launch available: orange, green, yellow (more to follow)!

Certified according to the playground standard DIN EN 1176 with GS seal.

## Carefree user experience!

## Safe bouncing and swinging!

With reduced performance and therefore lower drop height, the BounceCloud offers a secure and carefree user experience for everyone!

- Break-through protection.
- Rimless bouncing surface! No danger, of touching springs and hard parts.

## Great play options thanks to the possible multiple arrangement!
